Unit 10 Media

Topic 1—Lesson 2(下篇)

An impressive advertisement

IELTS Speaking Part 2 (10 minutes)

You will be given one minute to prepare to talk about the topic on the task card. You will have to talk for 1-2 minutes, and then the teacher will give you feedback for 2-3mins. (5 minutes)

Describe an advertisement you saw which impressed you a lot.

You should say:

what the advertisement was for

when and **where** you saw it

whether it has a spokesman or not

and **explain why** this advertisement impressed you a lot.

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.3 Here is another model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (5 minutes)

Model 2

What it was for: An advertisement I saw recently that really made me think was about communication in the modern era. Specifically, this ad was for a new app that allows parents and their children to better understand one another.

When and where you saw it: I remember seeing this ad while I was watching TV on my day off. I had just woken up to see the sun shining through my apartment's window and **flipped on** the television. After a small amount of channel surfing I came across this advert.

Whether it has a spokesman or not: I have only seen this advertisement once, but from what I can tell there is no spokesman for their products.

Why this advertisement impressed you: What impressed me the most about it was how unique and fashionable its spot was in **depicting** generation gaps. The content of the advertisement was on teens communicating with **emoji** while the parents were relying on the more traditional text-messages. The ad cleverly suggested that the parents use the world's first voice-to-emoji translator app. What's most impressive though is that it highlights the fact that the language is evolving and adapting along with our technology!

IV. IELTS Speaking Part 3 (10 mins)

1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)

How to organise your answer in Part 3:

T: Topic Sentence + S: Supporting Details (Explanation/Examples)

Do you think advertising is the most effective way to publicise a product?

T: In my opinion, the best idea on how to drum up support for a product or service is and always will be advertising.

S1: Advertising is all around us and has been since before the **mass production** of goods, which means that it is the most efficient method

S2: Plus, the fact that no alternative to advertising can be imagined proves that it is the ultimate method as it pertains to informing the public on consumer goods.

2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

Key Words and Models

What characteristics should a good advertisement have?

 There are basically two features. First, I think a good advertisement needs to accurately **portray** real world situations, but in a way that is light and heartfelt. Another key ingredient that I think an advertisement needs in order to be good is fitting background music. The right song or sounds will add more depth to an ad and therefore make it much more convincing.

How have advertisements changed in the past decades?

 **According to my point of view,** advertisements have become far more obtrusive than when I was younger. I think this is partly because of the Internet and online advertisements, specifically pop-up ads. You used to be able to avoid these types of advertisements in the past; however, now it seems that these types of advertisements have become the standard for reaching consumers on the web. Also, on the Internet ads are much flashier, and nearly impossible to ignore unlike in the past.

V. Summary (5 minutes)

Key Words & Expressions
