——冲刺 7.5 分

Unit 10 Media

Topic 2—Lesson 2(下篇)

A piece of interesting news

IELTS Speaking Part 2 (10 minutes)

You will be given one minute to prepare to talk about the topic on the task card. You will have to talk for 1-2 minutes, and then the teacher will give you feedback for 2-3mins. (5 minutes)

Describe a piece of interesting news.

You should say:

when you heard the news

who was/were involved in the news

why it was interesting

and **explain how** you felt after you heard the news.

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.3 Here is another model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (5 minutes)

Model 2

When you heard: A particular piece of news that struck me as fanciful as I scrolled through the bulk of an online news source last week was the discovery of a new exoplanet. This planet shares the same familiar characteristics as the Earth, so much so that it is considered a sister planet.

Who was involved in the news: A couple of **astronomers** from North America were doing their normal analysis of observable planets when they stumbled upon this **gem of a find**. Once the two scientists had realized what they had discovered, they quickly alerted the press and set about to writing a complete paper on the find.

Why interesting: It seems that many people thought it would be impossible to find a planet that was the mirror image of the Earth; however, given the vastness of space and the sheer statistical probability of the occurrence, these critics were proven wrong. I find this interesting in that if there are so many planets out there that are similar to the Earth, it means logically that life must also exist beyond our solar system.

How you felt after: For me, it is not a matter of whether we discover extra-terrestrial life, but a matter of when. This news story stood to **back up** my long held suspicions that we are not alone in the universe. This particular viewpoint has allowed me to have a more open mind and to dodge my ever present biases that many people often have.

IV. IELTS Speaking Part 3 (10 mins)

1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)

How to organise your answer in Part 3:

T: Topic Sentence + S: Supporting Details (Explanation/Examples)

Which way do you like to get news, through the Internet, TV or newspapers?

T: I prefer to receive my daily dose of news by way of the Internet.

S1: Online news sites are able to report events almost instantaneously, which has been a boon for people living in areas that are frequented by natural **catastrophes**. For example, whenever something unexpected occurs, people elsewhere will be informed in time online and offer instant help and support to those in need.

S2: Also, an added benefit to reading news online is that you can oftentimes obtain a larger variety of news, ranging from the business world to the entertainment world. Access to such a great amount of information helps people broaden their horizons.

2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

Key Words and Models

What kinds of news are young people interested in in your country, and is it the same as old people?

According to my observation, news items that people in China prefer to read vary among different age groups.

As a general **rule of thumb**, younger people here are more likely to be interested in gossip or celebrity news, and technology news about products they are into. In contrast to younger people, the elderly in my country are usually more concerned about political, financial, and world news.

Some people believe that life is not always with good news. Do you agree or disagree? Why?

I agree whole heartedly that news is not always good, as the lives we live are not perfect. As a matter of fact, perfection is an illusion and everyone without exception experiences both positive and negative trials in their lives, so obviously receiving bad news is an **inescapable** fact of life. The only difference is the way one might receive the news. As some people are optimistic while others are pessimistic, they tend to interpret news somewhat related to their own bias.

V. Summary (5 minutes)

Key Words & Expressions

astronomer

gem of a find

back up

catastrophe

rule of thumb

inescapable

Key Sentences

A couple of **astronomers** from North America were doing their normal analysis of observable planets when they stumbled upon this **gem of a find**.

This news story stood to **back up** my long held suspicions that we are not alone in the universe.

Online news sites are able to report events almost instantaneously, which has been a boon for people living in areas that are frequented by natural **catastrophes**.

As a general **rule of thumb**, younger people here are more likely to be interested in gossip or celebrity news, and technology news about products they are into.

As a matter of fact, perfection is an illusion and everyone without exception experiences both positive and negative trials in their lives, so obviously receiving bad news is an **inescapable** fact of life.
