Unit 2 Food

Topic 4—Lesson 2(下篇)

A picnic or an outdoor meal

IELTS Speaking Part 2 (10 minutes)

You will be given one minute to prepare to talk about the topic on the task card. You will have to talk for 1-2 minutes, and then the teacher will give you feedback for 2-3mins. (5 minutes)

Describe a picnic or meal that you ate outdoors.

You should say:

where you had this meal

who was with you

what you ate and drank

and **explain why** you ate outdoors.

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.3 Here is another model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (5 minutes)

Model 2

Where you had this meal: As I have been a fan of picnics for a number of years, and **on top of that**, as I live rather close to the local national park, the opportunity to picnic frequently presents itself. A nice summer in my city is a rare occurrence, but when it does come, it's a rather glorious affair.

Who was with you: **To make the most of it**, we grabbed a few bits and pieces from the local shop and went out for a picnic with a few friends of mine.

What you ate and drank: The simple meal was composed of olives, which a picnic simply wouldn't do **without**, and a wide variety of wraps, sandwiches, cold cuts, and smoked salmon. Salmon with soft cheese is just an absolute classic and one of my favourites. As for drinks, we **indulged ourselves** with some homemade ice tea and various sugary beverages. The afternoon was then dominated by chatting and general sharing of various sorts of banter and stories.

Why you ate outdoors: As for how I felt about this whole affair, well , for starters, it was an enjoyable **afternoon**; however, I won't pretend that there was anything that was particularly special about it. It did make for a nice change when compared to pitiful school food we had been receiving over the past few days. **Chances permitting**, perhaps we might do it again. Even so, the whole thing seemed a little bit tiresome in my opinion.

IV. IELTS Speaking Part 3 (10 mins)

1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)

How to organise your answer in Part 3:

I: Introduction Sentence + P: Points (Point1, Point2...)

What do you think are the good points and bad points about going on a picnic for lunch?

I: As far as I see it, the advantages of going picnicking outweigh its disadvantage.

P1: The best part about going on a picnic is that it's a mini-vacation in that it is not an ordinary occurrence but something special. So not only can it be **uplifting** and invigorating on your emotional and spiritual state, it also offers you the opportunity to bring yourself nearer to nature.

P2: The only bad point in my opinion is that if you choose your location unwisely, you could run into wild and dangerous people or animals.

2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

What are some differences between eating in an open-environment and eating indoors?

There are a few key differences between eating outside and dining inside. When choosing to eat outdoors, you are inherently choosing a less controlled environment that has external factors present. These factors include temperature, weather, insects, and perhaps being bothered by the occasional **passersby**. Eating indoors is normally the opposite of this, meaning you are in a controlled environment where your every comfort is constantly looked after.

On what occasions (or, in what circumstances) do people choose to eat outdoors and on what occasions do people choose to eat in a restaurant?

Different occasions or circumstances dictate when people might eat outdoors or in a restaurant. Normally, on occasions that are considered formal, such as meetings and dates, a restaurant is considered the proper venue. A restaurant allows for a certain level of predictability such as access to bathrooms, good service, and clean silverware, which gives people more chances to focus on conversations on more important matters. Conversely, eating outdoors is like inviting in unknown elements. While you are dining outdoors, it could suddenly start raining or you could even get stranded, so it's better to eat outdoors with close friends that **are accustomed to** eating outside.
