Unit 3 Places

Topic 3—Lesson 2(下篇)

A river, lake or sea

IELTS Speaking Part 2 (10 minutes)

You will be given one minute to prepare to talk about the topic on the task card. You will have to talk for 1-2 minutes, and then the teacher will give you feedback for 2-3mins. (5 minutes)

Describe a river, lake or sea which you like.

You should say:

what the river, lake or sea is called

where it is

what the land near it is like

and **explain why** you like this river, lake or sea.

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.3 Here is another model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (5 minutes)

Model 2

What the sea is called: A body of water that I remember quite vividly is the South China Sea.

Where it is: This expanse of water is enclosed by the south of mainland China, east of Vietnam and Cambodia, and west of the Philippines.

What the land near it is like: The surrounding landscape that encapsulates this body of water is smooth and pristine. The coastline of each country near this particular sea is characterised by amazingly beautiful beaches. Once you travel inland, the land is either covered by dense forests or dotted with tropical trees.

Why you like it: The main reason why I have an affinity for this sea is based solely on the fact that crossing this sea was such an unforgettable experience. My first encounter with the South China Sea was on a cruise ship that was voyaging from Hong Kong to Manila. I remember standing on the ship's deck in order to take in the whole scene. It is natural to stand on the edge of ships and marvel at the size of such an expanse. In my sweet memory of the journey, this particular sea is still glittering with brilliant reflections that seem to dance across its great surface!

IV. IELTS Speaking Part 3 (10 mins)

1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)

How to organise your answer in Part 3:

I: Introduction Sentence + P: Points (Point1, Point2...)

What do people enjoy doing when they visit rivers, lakes, or seas? Why do you think these activities are popular?

I: There are numerous activities that people can enjoy at these recreational locations and two of them can be mentioned here.

P1: One of the most popular activities that I have observed people taking part in is fishing. In fact, the reason why fishing appeals to some people is that they enjoy the thrill of catching a live creature and the satisfaction of releasing it afterwards.

P2: Another best-loved activity is swimming. Not only will people have great fun when staying in the fresh water of rivers, lakes or seas, they are also taking the opportunity to build up their body and become healthier.

2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

Key Words and Models

What benefits do you think people get from the activities they enjoy in the water?

Based on the types of activities, there are different benefits that people can receive. When it comes to fishing, it benefits people by giving them a kind of self-challenge, meaning such an activity tests the limits of one's patience that is needed to wait until something comes along and takes the bait. With regard to swimming, it provides a more relaxing way for exercise, and is considered a healthy method to employ for **getting into shape**. Besides, swimming also helps cheer people up, as swimmers normally feel excited when playing with water.

What are different advantages of swimming in the sea versus swimming in a pool? What do you think the disadvantages are?

The main advantage of swimming in the sea other than a pool is that salt water has been shown to have therapeutic effects on the skin. It can also help to **disinfect** your entire body, making you less susceptible to bacterial infections, whereas swimming pools are often a breeding ground for various types of bacteria and fungus. The main disadvantage as I see it is that swimming in the sea is more dangerous in regards to safety. The sea is vast and rip currents could possibly pull even the strongest of swimmers out to sea, yet you obviously do not have this problem in a swimming pool.

V. Summary (5 minutes)

Key Words & Expressions

be enclosed by

have an affinity for

encounter

thrill

get into shape

disinfect

Key Sentences

This expanse of water **is enclosed by** the south of mainland China, east of Vietnam and Cambodia, and west of the Philippines.

The main reason why I **have an affinity for** this sea is based solely on the fact that crossing this sea was such an unforgettable experience.

My first **encounter** with the South China Sea was on a cruise ship that was crossing from Hong Kong to Manila.

I suppose fishing is popular because some people enjoy the **thrill** of catching a live creature and the satisfaction of releasing it afterwards.

It provides a more relaxing way for exercise, and is considered a healthy method to employ for **getting into shape**.

It can also help to **disinfect** your entire body, making you less susceptible to bacterial infections.

The next lesson will be **Unit 3 Topic 4 An open-air or street market**.
