

51Talk IELTS Speaking-Advanced

雅思口语高级

——冲刺 7.5 分

Unit 1 People

Topic 2—Lesson 2(下篇)

A famous person you would like to meet

IELTS Speaking Part 2 (10 minutes)

You will be given one minute to prepare to talk about the topic on the task card. You will have to talk for 1-2 minutes, and then the teacher will give you feedback for 2-3mins. (5 minutes)

Describe a famous person - not from your country - that you want to meet.

You should say:

who this person is

what he/she does

why he/she is famous

and **explain why** you want to meet this person.

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.3 Here is another model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (5 minutes)

Model 2

Who: If I had the **hypothetical** choice of meeting any famous person alive today, I would choose the theoretical physicist and cosmologist Stephen Hawking.

What he/she does: Professor Hawking is a brilliant scientist that specialises in theories on the mechanics of black holes. He was also one of the first scientists to theorize on general relativity and quantum mechanics being unified. Hawking is also well-known for supporting the many-worlds interpretation of quantum mechanics.

Why they are famous: After writing a novel, *A Brief History of Time*, explaining his theorems and personal ideas on cosmology, he became a popular **cultural figure**. He has appeared on cartoon shows, talk shows and of course a varying range of shows oriented towards science.

Why you want to meet this person: To discuss black holes with Stephen Hawking would be an amazing experience! The amount of information to be gained by such a famous scientist would be **invaluable** to anyone. Perhaps he would be able to suggest areas that are in need of further research or areas he would like to experiment with, but lacks the time.

注: quantum mechanics 量子力学 cosmologist 宇宙学家 *A Brief History of Time* 《时间简史》

IV. IELTS Speaking Part 3 (10 mins)

1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)

How to organise your answer in Part 3:

I: Introduction Sentence + P: Points (Point1, Point2...)

What do you think are the things that make a person famous?

I: As far as I can tell, there are a couple of ways that people can make themselves well-known.

P1: One method that helps a person stand out and become famous is completing some astounding deeds, such as saving a wounded soldier on the battlefield, protecting a single mother from a mugger, or breaking a world record in the Olympic Games.

P2: Becoming famous can even sometimes depend on chance. A person could earn a huge fame simply because he is in the right place at the right time, just like the sailor kissing a girl at the announcement that World War II had ended. A photographer happened to record the moment and made the sailor famous around the world.

2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

Key Words and Models

What are the good things about being famous? Are there any disadvantages?

 Being famous carries certain bonuses that are out of reach to a layman. These benefits encompass higher priority in situations that require a waiting period and favourable treatment in many other social contexts, such as dining at a luxurious restaurant free of charge. A gleaming disadvantage to being famous, on the other hand, is a complete lack of privacy. When you're famous, every action, no matter how **mundane**, will be scrutinised.

Do you think famous people have an influence on young children?

 I think that famous people have a profound impact on young children. Children inherently lack the ability to make sound judgments, thus they look to others for help. Since famous people tend to have the greatest influence in modern society, it makes sense that they are admired greatly by younger generations. Children might even seek advice from interviews done with celebrities before asking their own parents. Such admiration oftentimes causes children to blindly follow their idols' footsteps, while totally disregarding **alternatives**.

V. Summary (5 minutes)
