When & where: China is lucky in that it has a long and gripping history with many instances of appealing folklores. A tale I remember quite well is *The Four Dragons*, which I heard in primary school. My classmate and I were being our usual noisy selves when our teacher interrupted like thunder. He proceeded to introduce a story by emphasising the importance of folklores and oral traditions. He said, "Books are the crafts that **navigate** the mythical seas of storytelling."

What: This was a fitting statement as this particular story was about dragons arising from the Eastern Sea and they, upon seeing the misery of the people **dwelling** on land, went to the Jade Emperor. This king **reigned over** heaven, the sea and the Earth and was all powerful. The dragons begged the Emperor to send down rain to aid the people, but when the Emperor shrugged off their request, they took it upon themselves to bring rain. The four dragons scooped up sea water and sprayed it over the land. The Jade Emperor had the dragons punished by putting mountains on top of them; they then turned into the four great rivers of China. They transformed into the Heilongjiang, the Huanghe, the Yangtze, and the Zhujiang.

How you felt: To me this story represents self-sacrifice for the greater good and that collectivism can be beneficial to society.

IV. IELTS Speaking Part 3 (10 mins)

1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)

How to organise your answer in Part 3:

T: Topic Sentence + S: Supporting Details (Explanation/Examples)

Are traditional stories still popular?

T: From my understanding, traditional stories have always been popular and they continue to be popular nowadays.

S1: Actually, these types of stories are akin to **folklores** or religious mythologies. They are told in more dramatic fashion in modern times. For example, many old mythologies have become movies, such as *Thor* or *Clash of the Titans*.

S2: Also, these more traditional stories have the potential to become plays or television programmes, making them more popular than ever before, simply because a larger number of people have access to them.

2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

What kind of stories do children like? Why?

 Children tend to enjoy fairy tales more than any other types of stories. I contribute this to the fact that fairytales are extremely creative works of art with a wide array of characters that **draw in** the listeners or readers and give them opportunities to use their imaginations, and everyone knows that children have the most active imaginations.

What is the influence of modern technology on cultures?

 Modern technology has impacted cultures in many obvious ways such as creating the globalisation anomaly, which has connected the world's nations and cultures. Communication technologies have allowed cultures to share their traditions and customs with other people half way around the globe **in a matter of seconds**. Modern technology has also allowed these same cultures to become more tolerant of other cultures by proxy.
