雅思口语高级

——冲刺 7.5 分

Unit 1 People

Topic 4—Lesson 1(上篇)

A person who helps/helped people

I. Pronunciation Practice (2 minutes)

the Unstressed 'i': ('i' in the unstressed position devolves consistently into /ə/)

ability /ə'biləti/

family /'fæməli/

animal /'ænəməl/

Read the following words and pay attention to the sound of letter 'i'.

applicant

article

audible

authority

beautiful

California

II. IELTS Speaking Part 1 (8 minutes)

Extend your answer to 3-4 sentences. It's easier to get 7.5.

1. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (4 minutes)

How popular are bicycles in your hometown? **Why?**

Do you think bicycles are suitable for all ages? **Why or why not?**

What are the advantages of a bicycle compared to a car?

The examiner will score your answer from the following aspects:

1. How good you are at **keeping talking** at the right speed and **connecting your ideas together**;
2. **How much vocabulary** you have and **how well** you use it;
3. **How many structures** you have and **how well** you use them;
4. How well you **pronounce** the language.

2. Read and learn the following key words and models for the IELTS Part 1. You are suggested to apply these words in the following steps. (4 minutes)

Key Words and Models

physical exertion

Example: Due to heavy traffic and an unorganised road system, two-wheeled vehicles of all kinds are not only popular, but are considered to be the most efficient way to navigate the city. Although motorised and electric bicycles are highly utilised in my hometown, bicycles remain the main form of transportation. I suppose it is because bicycles are economical, costing nothing but **physical exertion** to use and are inexpensive.

frail

Example: Bicycles are not suitable for all ages, and as a general rule, the extremely young and old should avoid riding these contraptions. Children ranging from one to three years old lack the proper sense of coordination and balance required to safely ride a bicycle. This age range may require the use of training wheels. The same issues affect the elderly with the added dilemma of having a **frail** physical form and slower healing process, which means even a small accident could result in death.

back road

Example: Bicycles are mostly advantageous for transportation purposes over short distances and are best employed in urban environments. When riding a bike instead of driving a car, one is able to avoid traffic jams by weaving in and out of main roads and **back roads**, thusly improving commute times. Another advantage to bike riding when compared to using a car is the added benefit of daily exercise that riding a bike imparts.

III. IELTS Speaking Part 2 (12 minutes)

1. *Brainstorm. Plan your answers based on the given questions. (1 minute)*

Describe a person who has done a lot of work to help people.

- Who is/was this person?
- Where does/did this person live?
- What has this person done to help people?
- How do you know about this person?

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.1 Here is a model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (8 minutes)

Model 1

Who this person was: I suppose “help” is a controversial term, since the advocate of one deed may well be against another. Therefore, people would differ in how they define the deeds of helping others. A good illustration of my case lies in the **age-long** debate of the free market. However, I shall stick to the basics, and focus solely on the net benefit brought to humanity as a whole. In this case, the most beneficial person, at least in my humble opinion, would have to be Keynes, who **devised** the theory of free market socialism, which nowadays forms an intrinsic part of most countries' economic policies.

Where this person lived: He, whilst alive, lived in the UK.

What he has done to help people and how do you know about this person: I knew of him through reading and research that I have done while I was working on writing for my school newsletter. So far an immeasurable number of poverty-stricken individuals have experienced the benefits of his work, and in particular the effects are especially noticeable in traditionally socialist countries such as Sweden and the UK **in the form of** free health care and education for most people. This has allowed Sweden to attain one of the highest population satisfaction rates around the world. In addition, his theories may well have led us on a substantially shorter road of recovery after the financial crisis, since his theories gave politicians a better idea as to how to respond.

You are required to talk for the full 2 minutes.

2.2 Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (3 minutes)

Describe a person who has done a lot of work to help people.

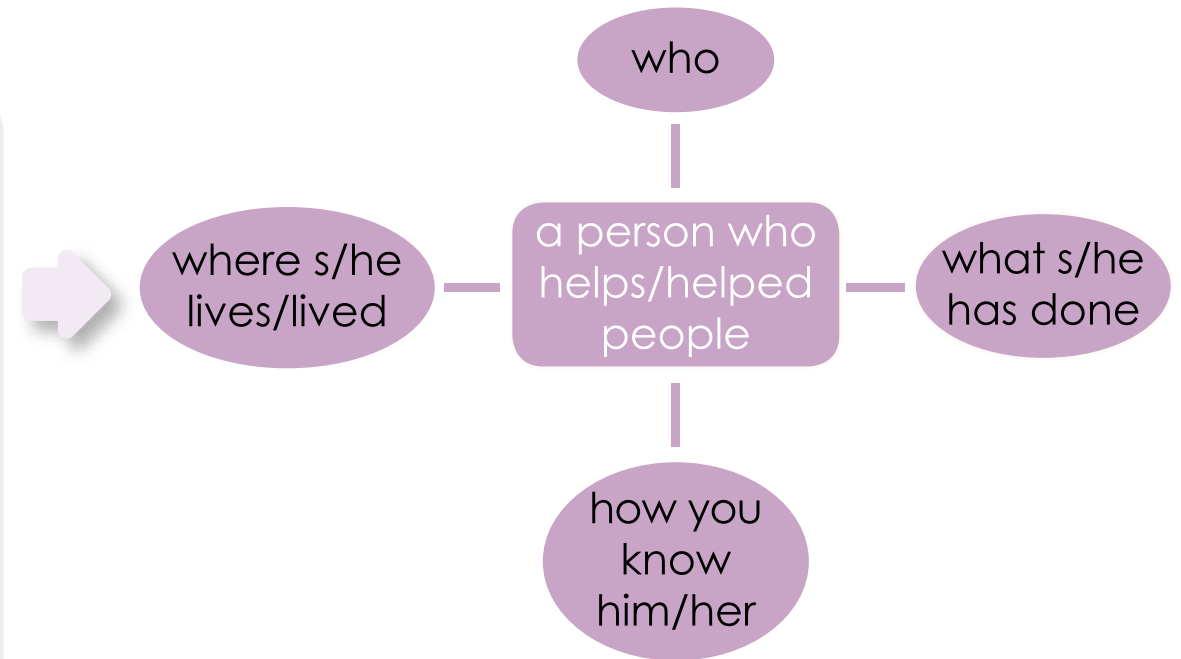

You should say:

who this person is/was

where this person lives/lived

what he/she has done to help people

and **explain how** you know about this person.

Homework: Please use the model for these two topics for further practice.

Describe a theory.

Describe a famous foreigner.
