Unit 9 Event

Topic 1—Lesson 2(下篇)

An important choice

IELTS Speaking Part 2 (10 minutes)

You will be given one minute to prepare to talk about the topic on the task card. You will have to talk for 1-2 minutes, and then the teacher will give you feedback for 2-3mins. (5 minutes)

Describe an important choice you had to make in your life.

You should say:

when you had to make this choice

why you had to make this choice

how you felt when you were making this choice

and **explain whether** you made a good choice.

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.3 Here is another model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (5 minutes)

Model 2

When: As it relates to the many **milestones** that are thrust upon one in their life, the most important event in mine, which came with a decision, was graduating from high school. About six months before the graduation date, I had decided to go to the university.

Why: This decision to go on to higher learning is a choice that all graduating students must make, as it has a huge impact on the future. Everyone expects to keep moving forward and this choice in particular is crucial in the course of one's life.

How you felt: I felt the way everyone feels when they begin a long and **arduous** journey. I was excited at the prospect of being my own master, making my own choices, and creating my own opportunities.

Was it a good choice: It is really not **black and white** as it relates to choices. Sure there are obvious bad choices like drinking and driving, but for the most part the paths we walk in life exist due to the choices made mostly in the gray area. Speaking on only my behalf, going to the university was the best choice for me. I learned responsibility and discipline. My time spent at the university also taught me important conceptual and technical skills that have helped me in my career. **In a nutshell**, going on to higher education was the best choice I could have made for myself.

IV. IELTS Speaking Part 3 (10 mins)

1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)

How to organise your answer in Part 3:

I: Introduction Sentence + P: Points (Point1, Point2...)

What are typical choices people make at different stages of their life?

T: Typical choices that occur at different stages in life are usually made at certain **turning points**.

P1: First, when someone graduates from high school, he is faced with the choice in which university to attend and after that he needs to choose a major, which will decide the future course of his career.

P2: Another typical choice people make is that after they meet someone they fall in love with, they have to decide if they want to get married and eventually have children.

2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

Key Words and Models

Why do some people like to discuss choices with other people?

 I think for some people discussing choices is a way to reflect on decisions made in the past. Pondering one's life is quite natural especially as you get older and talking about your past life can have a **therapeutic** effect on people. Also, some people like to be reassured that they have made the right choices and that their life has had some kind of meaning for themselves and others.

What kind of choices do people have to make in their everyday life?

 Many choices that occur during a regular person's everyday life are mundane and more than likely to be uneventful. Typical choices for the majority of people range from choosing what to eat for breakfast to what colour suit to wear in the office. Important choices are rarely ever made over the course of a person's normal day, which is what makes certain decisions, such as finding a new job, so life-altering.

V. Summary (5 minutes)

Key Words & Expressions

milestone

arduous

black and white

turning point

therapeutic

uneventful

Key Sentences

It relates to the many **milestones** that are thrust upon one in their life.

I felt the way everyone feels when they begin a long and **arduous** journey.

It is really not **black and white** as it relates to choices.

Typical choices that occur at different stages in life are usually made at certain **turning points**.

Pondering one's life is quite natural especially as you get older and talking about your past life can have a **therapeutic** effect on people.

Many choices that occur during a regular person's everyday life are mundane and more than likely to be **uneventful**.
