

For a Better Life

We are going to learn how sources of energy have changed over time.

Warm-up

2

min

Does your city have clean or polluted air?

51Talk
无忧英语

Reading 4 min

Read with the teacher and then answer the question below.

A long time ago, life was **harsh** for people, as they had to work hard to get food, clothes and shelter. They used fire (picture 1) and **domesticated** animals such as horses and oxen (picture 2) to make their lives a bit easier.

What other domesticated animals do you know?

To be continued... >>

Reading 4 min

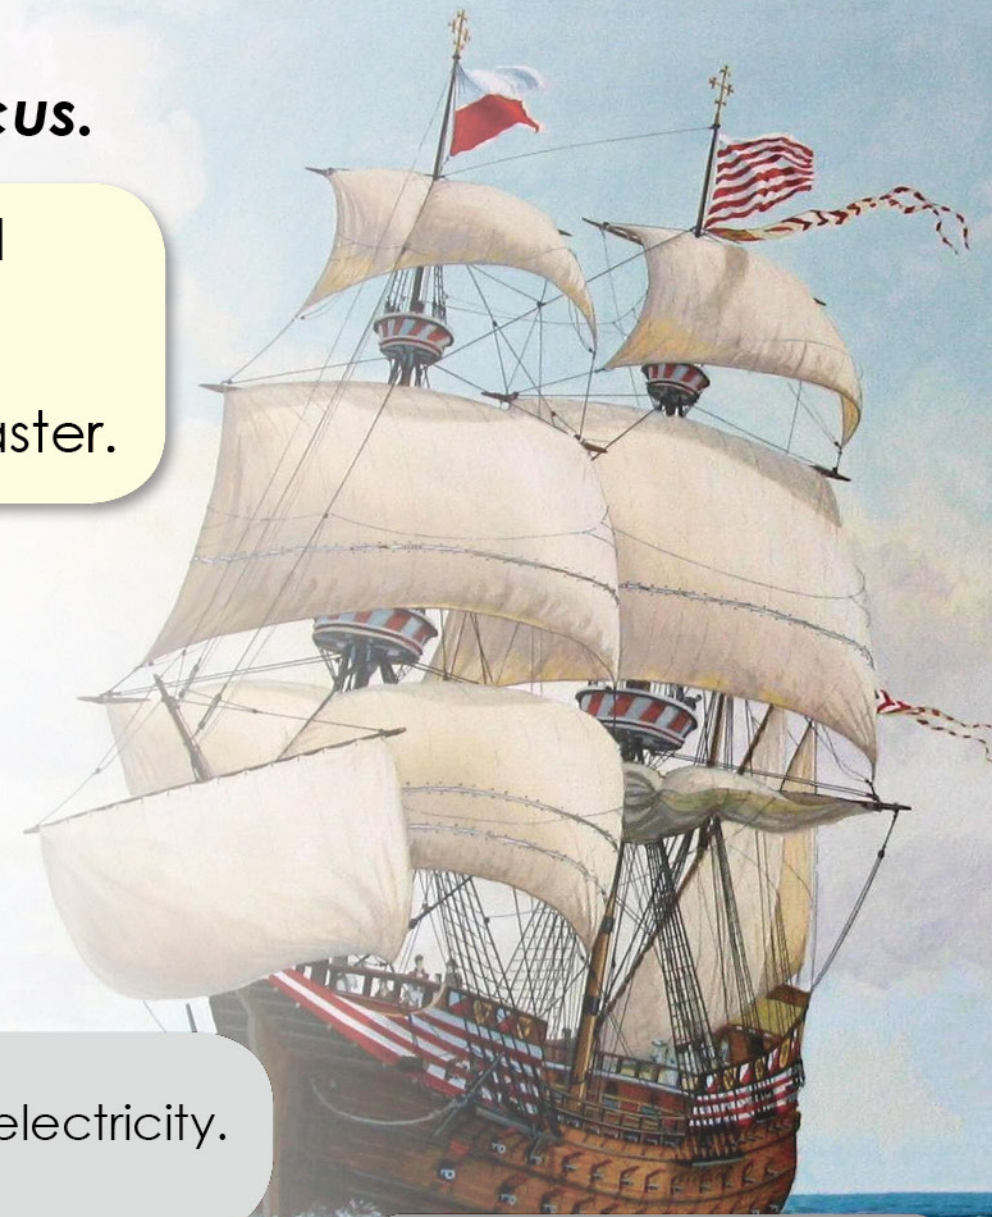

Read with the teacher then move to the Word Focus.

Later on, people learned how to use the power of wind and water to run windmills (picture 1) and waterwheels (picture 2). They also learned that they could use these **sources** of **energy** to make transportation better and faster.

Word Focus

- Sunlight is a **source** of energy which can be used to produce electricity.
- Do you know any other **sources** of energy?

To be continued... >>

**Reading** 3 min

Read with the teacher and answer the questions below.

The eighteenth, nineteenth, and twentieth centuries brought many great inventions. **Coal** (picture 1) and oil (picture 2) were used to power machines, which helped to make people's jobs more efficient and their daily life more enjoyable.

1

2

Do you use coal or oil? What do you use it for?

To be continued... >>

**Reading****3** min

Read with the teacher and then answer the question below.

Nowadays, we use even more forms of energy, such as **nuclear** (picture 1) and solar power (picture 2), to make our lives easier. The use of energy has brought us many comforts, but the use of some of them has brought pollution too. What will the future be like?

**1****2**

Have you ever seen a nuclear power plant?

**Task****4**

min

Use the Word Bank to make questions that match the given answers.

Example:

Q: What sources of energy did people have a long time ago?

A: They had domesticated animals and fire.

Q: _____?

A: They used the power of water and wind.

Q: _____?

A: They used coal and oil to power machines.

Q: _____?

A: The use of some forms of energy brings pollution.

Word Bank

energy

source

~~domesticated~~

use

bring
