Giant's Causeway

We are going to learn about Giant's Causeway.

Warm-up

2 min

Have you ever been to a coast? What did you see and do there?

**Reading****3** min

Read with the teacher and then answer the question below.

Antrim is a county in the northeast of Northern Ireland. On Antrim's most northern coast there is a World Heritage Site, which has one of the biggest rock **formations** in the world.

What can be found on Antrim's most northern coast?

To be continued... >>

**Reading****4** min

Read with the teacher and then answer the question below.

Giant's Causeway is a great wonder that is made up of over forty thousand **columns** that are next to the sea. These columns have helped to shape the **landscape** of Northern Ireland's rugged cliffs.

What is Giant's Causeway made up of?

To be continued... >>

**Reading****4** min

Read with the teacher and then answer the question below.

Giant's Causeway was formed when volcanoes erupted and threw out **lava**. Then waves of sea water hit these hot melted rocks and cooled the lava, producing **cracks** on the columns that formed.

How was Giant's Causeway formed?

To be continued... >>

Reading

3 min

Read with the teacher and then move to the Word Focus.

People can do many things at Giant's Causeway. They can choose to learn about many myths that **surround** Giant's Causeway or they can choose to climb the rock columns and take pictures of this amazing natural wonder.

Word Focus

- An island is **surrounded** by sea water.
- What **surrounds** your house?

Let's practice! >>
