This Is the Way We Wash and Wash

We are going to learn how soap is made.

Warm-up

3 min

What is this? What do you use it for?

**Reading****3** min

Read with the teacher and then answer the question below.

What do you need when you wash your hands? That's right! You need **soap**. You use soap every day to wash many different things, but do you know how it is made?

What do you use soap for?

To be continued... >>

**Reading****3** min

Read with the teacher and then answer the question below.

Soap comes in different sizes, shapes, and colors. The main **ingredient** of soap is either vegetable oil or animal fat, which is then mixed with a special chemical called **lye**.

What kinds of soap do you have at home?

To be continued... >>

Reading

4 min

Read with the teacher and then move to the Word Focus.

The most common way to make soap is the cold **process**, which is where the fat and lye **react** together to form soap. This process takes several weeks to complete. Once the fat and lye are fully mixed, fragrance and coloring can be added.

Word Focus

- Making soap is a long **process**.
- What is the **process** of making soap?

To be continued... >>

**Reading****4** min

Read with the teacher and then answer the question below.

If we have a lot of **dirt** on our hands, it can't be washed away by just using water. If we use soap when washing our hands, it is easier to wash away the dirt. Can you tell your teacher how you wash your hands?

How many times do you use soap every day?

Let's practice. >>

**Task****4**

min

Fill in the blanks by using the words from the Word Bank.

Word Bank

dishes / lye / hands / dirt / clothes / animal fat / shapes
