Reading 4 min

Read with the teacher and then move to the Word Focus.

Paper is easy to make. First, pour in some water to turn the wood chips into paper **pulp**. Second, put the pulp into a wide, long **screen**, **drain** out the water, and press the pulp to make the wet paper smooth. Third, heat and dry the wet paper. After a couple of days, the paper is ready to be used.

Word Focus

- Wood **pulp** is used to make paper.
- What is the wood **pulp** made from?
