Reading

3 min

Read with the teacher and then answer the question below.

All the cheetah family are good sprinters. One kind, the Asiatic **cheetah**, is believed to be the **fastest** land animal in the world and can reach a top speed of seventy miles per hour.

Can you describe the Asiatic cheetah in the pictures?

Reading

4 min

Read with the teacher and then move to the Grammar Focus.

Asiatic cheetahs live where food is readily available, like **grasslands**. There are many **threats** to their habitat and existence, such as agriculture and uncontrolled hunting. If people don't find a way to save Asiatic cheetahs, they will become completely extinct.

Grammar Focus

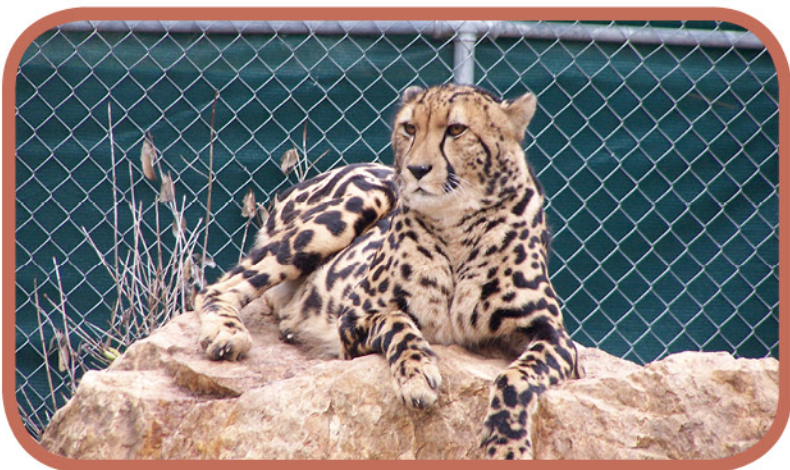

- **Type one conditional:** The “if” clause uses the simple present tense, while the main clause uses the simple future tense. The “if” clause is used to express a certain condition that must happen for the action in the main clause to happen.
- Form: If + simple present, will + verb.
- E.g., **If** there is no rain this weekend, I will go hiking.

**Reading****4** min

Read with the teacher and then move to the Word Focus.

Asiatic cheetahs live in the grasslands of Iran. There used to be Asiatic cheetahs in India, but the last three were killed in 1948. As of now, there are only about fifty Asiatic cheetahs left in the world and all of them live in **sanctuaries** in Iran.

**Word Focus**

- The Chinese government set up a **sanctuary** to help protect pandas.
- Why do people set up **sanctuaries** all over the world?

**Reading****3** min

Read with the teacher and then answer the question below.

In order to protect Asiatic cheetahs, people have started a project to **preserve** and expand the cheetah habitats in Iran. Thanks to this project, the numbers of Asiatic cheetahs are rising today.

What can people do to protect Asiatic cheetahs?

Let's practice. >>

**Task****4**

min

Summarize the lesson by answering the questions.

What do you know about Asiatic cheetahs?

Hints: sprinter, fast, prey
