Model 1

Who, when and where: In October of 20XX, my friends and I formed a band and performed in front of the whole school for a talent show. It was intensely exhilarating. I remember distinctly the nervousness we felt when we signed up for the talent show.

What: After putting our heads together and consulting my dad who is a total Beatles fan, we decided to sing *Hey Jude*. We rehearsed day in day out in order to ensure that we would do our best for the show. Finally, the day of the show arrived. As we stood on stage, I felt extremely confident that we were about to kill it, and we did. We sang in perfect harmony, and didn't forget any lyrics. The audience even sang along with the chorus, and we received a standing applause after the show.

Why: Our first performance as a band was intended to be memorable. We had never performed in front of a crowd before so it was very exciting for us. After the show, there was a vote for best performance, and our band unsurprisingly won. It was also the first time that my singing talent was widely recognised by people other than my family and friends.
