Part D

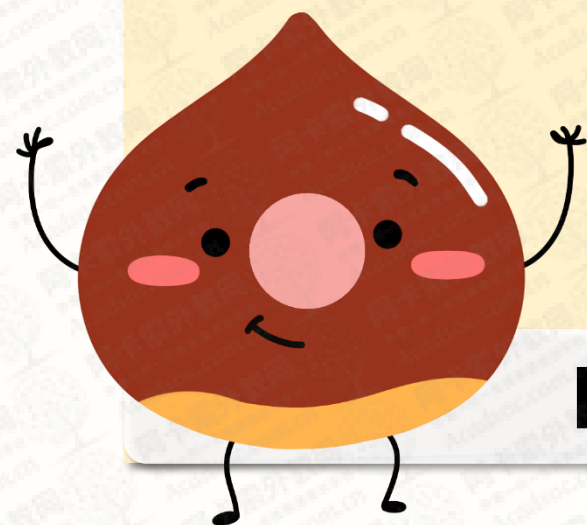

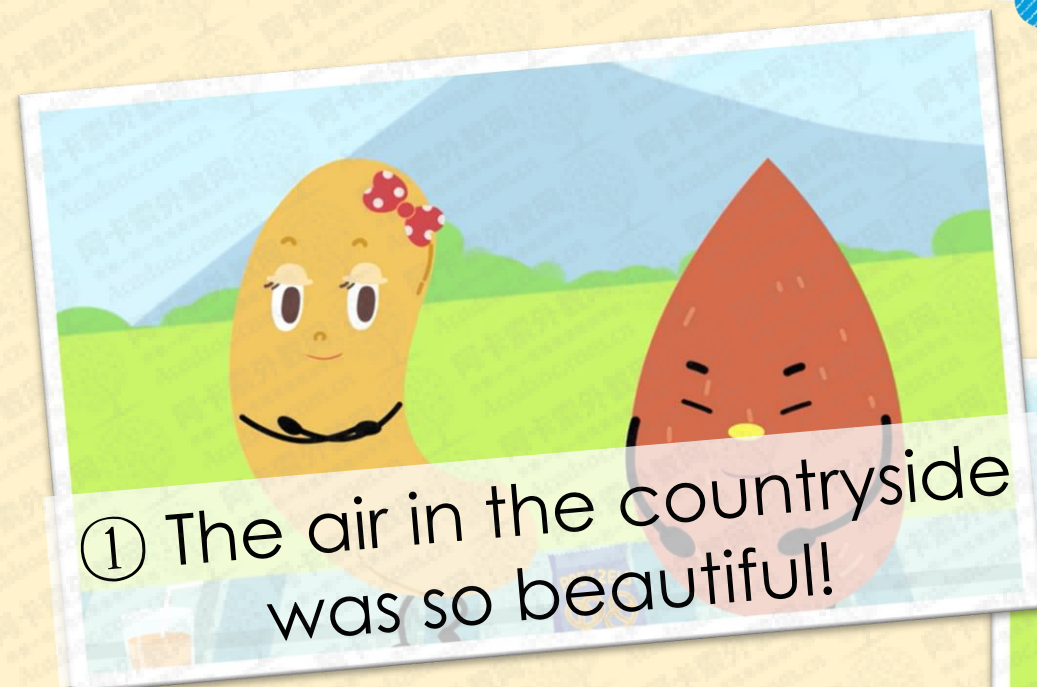

Part E

Part F

After class

Do you know?

80% of a human body is water. Water is a vital resource for the survival of human beings. So it is very important that we save water. We can turn off the tap in time. We can recycle water as much as we can. And we can also encourage others to join us! Every little action helps.

人体的80%是水。我们需要节约用水因为水是人类生存必不可少的资源。我们可以从身边的小事做起，比如关紧水龙头，尽可能地循环利用用水，带动身边的伙伴一起行动起来。
