Unit 3 Places

Topic 2—Lesson 2(下篇)

Describe an interesting historical place

IELTS Speaking Part 2 (10 minutes)

You will be given one minute to prepare to talk about the topic on the task card. You will have to talk for 1-2 minutes, and then the teacher will give you feedback for 2-3mins. (5 minutes)

Describe an interesting historical place.

You should say:

what it is

where it is located

what you can see there now

and **explain why** this place is interesting.

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.3 Here is another model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (5 minutes)

Model 2

What & where: I would say perhaps the most historic place in terms of age would be the Island of Crete I visited last summer. The stunning jewel of an island lies **in the midst** of the Mediterranean Sea.

What to see: The tropical weather and the gorgeous scenery make this one of the most attractive places I have had the pleasure of visiting. The sand was flurry underfoot, and in the distance, a single yacht **bobbed** and lolled against the incoming tide as if it were a toy in a bath. The whole place gave me a dream-like sense, from its vast group of palaces to the calm beaches and little white residences **glistening** in the sun. It's **no wonder** this place became the foundations for the well-known story and myth of Atlantis, a place of paradise, disappearing forever into the ocean.

Why: From the ruins, one doesn't need to be a historian to conclude that Crete was once an extremely powerful nation, yet as to what exactly happened there I don't know for sure. This simply adds to the sense of mystery for me and makes it all that more interesting to visit. According to many historians, the Island of Crete used to have a famous neighbour. They believe that the lost city of Atlantis was once on a neighbouring island that sunk due to a cataclysmic volcanic eruption. I can only speculate but this is perhaps what caused the downfall of the ancient Minoan civilisation.

IV. IELTS Speaking Part 3 (10 mins)

1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)

How to organise your answer in Part 3:

T: Topic Sentence + **S:** Supporting Details (Explanation/Examples)

Do you think an area can benefit from having an interesting historic place locally? In what way?

T: A historical site can do wonders to a particular place.

S1: The greatest benefit of opening places of historic interest to the public is related to the economy. With more and more travellers coming to visit these places, revenue can be increased. Thus, it encourages the development of the tourist industry and remarkably stimulates the local economy.

S2: Besides, locals who live around notable historical sites, such as the Terracotta Army, often find employment in the service industry. As a matter of fact, their jobs are highly reliant on tourist dollars.

2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

Key Words and Models

How do people in your country feel about protecting historic buildings?

 People in China are very nationalistic; needless to say, we feel it an intense obligation to protect our own historic buildings and relics. The reason is simple: those historic buildings in our country are the icons of our heritage, embodying tremendous value and unique significance. Anyway, they indeed offer us a powerful sense of pride and honour. To be honest, part of being Chinese is feeling intimately connected to our history, and the weight and influences of the past are infinite.

What do you think will happen to historic places or buildings in the future? Why?

 From my viewpoint, we must always keep a balance between preserving historic architecture and making room for the future growth in urban planning. That is to say, some of those historic buildings or places need to be cautiously protected by the government and meanwhile modern constructions should be well guaranteed. For example, although significant portions of Beijing's City Wall and unique hutong sections of this city have been destroyed, considerable efforts have been put into restoring historic sites such as the Lama Temple and Drum and Bell Tower.

V. Summary (5 minutes)

Key Words & Expressions

in the mist of

bob
