Part 2 Let's Learn

1. Look and read.

A Tornado in a Bottle

A tornado is a storm. In this storm, the wind moves very quickly in a circle. Tornadoes can pick up trees, cars, and houses!

You can make a model tornado in a bottle. Here's how to do it.

Part 2 Let's Learn

1. Look and read.

1. Use two bottles.
Put water in one of
the bottles. Put
tape on the mouth
of the bottle. Make
a hole.

2. Tape the necks
of the bottles
tightly together.
(紧紧地)

3. Turn over the
bottles. Tilt the
(倾斜)
bottles and swirl
the water in a circle.
You are going to see
a little tornado.

Part 2 Let's Learn

2. Look and say.

... Tilt the bottles and **swirl** the water in a circle.

Q: What does **swirl** mean?

What is the
chef doing?
(厨师)

TI: Find answer on next page.

Part 2 Let's Learn

Key

... Tilt the bottles and **swirl** the water in a circle.

Q: What does **swirl** mean?

What is the
chef doing?
(厨师)

"**swirl**" here means to move
around quickly in a circle.
(环绕着)

Example:

The chef is swirling eggs.
