On My Birthday

My name is Miss Li. I am a math teacher in a primary school in Shenzhen. I have been living here for 10 years. I love teaching. I have been teaching math since 2009.

I love the performing arts, too. My family and I go to the circus on my birthday every year. The acrobats have strong arms and legs.

They jump, flip, and twirl in the air. It's a spectacular.

Last year, we had a party after watching an acrobatic show. My family prepared a large round cake for me. I made a wish before blowing out the candles. And we shared the cake and danced together. I was very happy and grateful for my family.
