Topic 5—Lesson 2(下篇)

A project or some work that you did with others

IELTS Speaking Part 2 (10 minutes)

You will be given one minute to prepare to talk about the topic on the task card. You will have to talk for 1-2 minutes, and then the teacher will give you feedback for 2-3mins. (5 minutes)

Describe a project or some work that you did with others.

You should say:

what the project or work was

when you did this

who was/were with you

how easy or difficult it was

and **explain how** you feel about it.

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.3 Here is another model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (5 minutes)

Model 2

What the project or work was: A project that made a considerable impact on my ideas about construction took place a little over a year ago. My friend had asked me to help him build a yurt on some newly bought woodland property.

When you did this: We started the construction in spring and didn't finish until the end of summer. We mostly worked during the day, because the nights were filled with pesky mosquitos that made working any time after dusk impossible.

Who was with you: There were only a handful of people involved in this little building project. It was me, my best friend, and his father.

How easy or difficult it was: Due to our lack of expertise in construction, this project turned out to be quite difficult. We had to build a wooden deck from scrape, and then we had to dig a well for the water supply. Next, we put together the premade yurt. Once the housing area was secured we installed the electrical lines throughout the home. The most difficult part at the end was installing solar panels and hooking up its battery source, as this took a lot of technical skills.

How you feel about it: Nothing is quite as satisfying as seeing something you built with your bare hands finished and standing against a natural tree strewn landscape.

IV. IELTS Speaking Part 3 (10 mins)

1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)

How to organise your answer in Part 3:

T: Topic Sentence + S: Supporting Details (Explanation/Examples)

What do you think of teamwork?

T: I think teamwork is important because it has the power to transform rocky relationships into well-functioning ones.

S1: Without teamwork, many aspects of society would not be able to function properly. For example, businesses and governments that heavily rely on teamwork could potentially crumble.

S2: It is no secret that people do not naturally get along with one another. It is only through socialisation in school and teambuilding exercises at work that people are able to tolerate others' existence.

S3: Teamwork has the ability to bring people together with vastly different backgrounds and customs. Civilisation could not have gotten as far as it has today without teamwork. This is why it is so important.

2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

Key Words and Models

Do you prefer to do things with others or alone?

This really depends on where I am. I am too assertive to work with other people, so I prefer to be alone at the workplace. However, if I am out in town or visiting friends on the weekend, I certainly prefer to do certain activities with others. For example, If I am at a bar with friends, I like to drink and **converse with** people and if I am at a museum, I like to walk around and discuss the exhibits with others.

What are the most important things when working with others?

There are many things that we must pay attention to when working with others. The first one is to **stick by** them no matter what. A co-worker should always be there to help you even if they may disagree with you sometimes. Besides, when working with others we ought to share our own honest opinions. Anyhow, the more options you have, the better. The last thing I consider most important when working with others is the quality of being humble.
