雅思口语高级
——冲刺 7.5 分

Unit 10 Media

Topic 5—Lesson 1(上篇)

Your favourite film

I. Pronunciation Practice (2 minutes)

Silent 'e' with Letter 'e'

Generally, letter 'e' makes the sound /e/ in words like pet;
however, when we add 'e' at the end of the word Pete, 'e'
makes the sound / i:/, and the final 'e' doesn't make a sound.

Read the following and pay attention to the sound of 'e'.

pet /e/

met

den

Pete /i:/

mete

dene

II. IELTS Speaking Part 1 (8 minutes)

Extend your answer to 3-4 sentences. It's easier to get 7.5.

1. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (4 minutes)

How do people learn new things in your country?

Why should people keep learning new things?

Do children and adults learn things in the same way?

The examiner will score your answer from the following aspects:

1. How good you are at **keeping talking** at the right speed and **connecting your ideas together**;
2. **How much vocabulary** you have and **how well** you use it;
3. **How many structures** you have and **how well** you use them;
4. How well you **pronounce** the language.

2. Read and learn the following key words and models for the IELTS Part 1. You are suggested to apply these words in the following steps. (4 minutes)

Key Words and Models

interactive video

Example: People in China learn new things exactly the same way people do in other countries. People will take special classes for training or orientation to learn new skills that might be useful for them. Another way people learn in China is of course by being hands-on and trying new things. The method of learning things by watching **interactive videos** online has always been popular.

plasticity

Example: Research has shown that the human brain has **plasticity**, which means no matter how old you are, you can always learn and retain new information. Therefore, the advantage to learning new things is that you keep your brain healthy by being active. Studies have also shown that learning new skills when you are older will help prevent mental diseases like Alzheimer's.

albeit

Example: In my honest opinion, I do think they learn the same way. Both children and adults learn through the process known as trial and error, which means both learn by making mistakes. The most important part of this method is self-correction. For example, if a child touches a hot stove and gets injured, he will probably never touch a hot stove again. This also applies to adults **albeit** with more complicated scenarios.

注：Alzheimer's (disease) 老年痴呆症

III. IELTS Speaking Part 2 (12 minutes)

1. *Brainstorm. Plan your answers based on the given questions. (1 minute)*

Describe a film you enjoyed watching.

- What type of film was it?
- What was it about?
- Why did you enjoy it?
- Was this film popular in your country?

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.1 Here is a model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (8 minutes)

Model 1

What type of film it was: A film I really enjoyed watching was a **dark fantasy film** which was titled *Attack on Titan*. I find this genre to be disturbing, which makes it entertaining in a morbid sort of way.

What it was about: This was a foreign film about giants and is actually based on a famous anime show from Japan. Basically, giants emerge on earth and they only eat humans. After several years humanity is totally decimated and the only survivors live behind three gigantic concentric walls. Due to the giant's lack of intelligence, they have never been able to get inside of the walls. The story **takes a turn for the worst** when a new type of giant shows up and this one is a hundred times bigger than the normal ones.

Why you enjoyed it: The **cinematography** of this film was amazing. It captured the dark and brooding atmosphere of this film perfectly. You know a film is good when you feel totally immersed in its imaginary world!

Whether this film was popular in your country: This film was shown in cinemas here in China, but to my knowledge it was not that popular. In spite of this, I have learned from various media sources that this film has successfully conquered some overseas film markets.

You are required to talk for the full 2 minutes.

2.2 Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (3 minutes)

Describe a film you enjoyed watching.

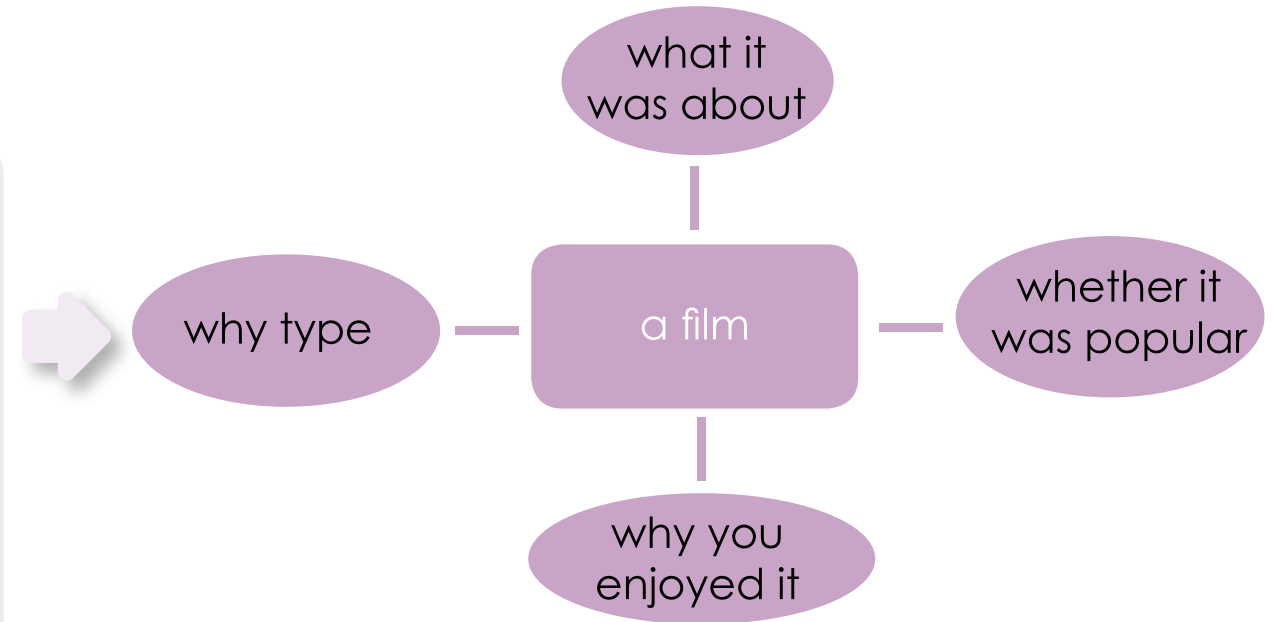

You should say:

what type of film it was

what it was about

why you enjoyed it

and **explain whether** this film was popular in your country.

Homework: Please use the model for these two topics for further practice.

Describe an interesting story.

Describe a foreign film.

Review (2 minutes)

Key Words & Expressions

interactive video

plasticity

albeit

dark fantasy film

take a turn for

cinematography

Key Sentences

The method of learning things by watching **interactive videos** online has always been popular.

Research has shown that the human brain has **plasticity**, which means no matter how old you are, you can always learn and retain new information.

This also applies to adults **albeit** with more complicated scenarios.

A film I really enjoyed watching was a **dark fantasy film**.

The story **takes a turn for** the worst when a new type of giant shows up and this one is a hundred times bigger than the normal ones.

The **cinematography** of this film was amazing. It captured the dark and brooding atmosphere of this film perfectly.

You will learn more about this topic in Lesson 2.
