Unit 4 Objects

Topic 4—Lesson 2(下篇)

An item of clothing or jewellery

IELTS Speaking Part 2 (10 minutes)

You will be given one minute to prepare to talk about the topic on the task card. You will have to talk for 1-2 minutes, and then the teacher will give you feedback for 2-3mins. (5 minutes)

Describe an item of clothing or jewellery.

You should say:

what the item is

what it looks like

on what occasion you wear it

and **explain why** you choose it to talk about.

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.3 Here is another model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (5 minutes)

Model 2

What the item is: An object I own, which may be jewellery of a kind I suppose, is my watch given to me on my eighteenth birthday. Watches have always seemed to me to symbolise adulthood, which made me even more pleased when my parents gave it to me! In spite of this, it did end up being one of the last things my parents would ever buy for me.

What it looks like: The watch itself is gorgeous, a rarity really. It has a wide face, buckled down to a leather strap, but that's not what's special. The face tells not only the time, but also the position of the planets around the sun. Each planet is represented by a precious stone orb of varying sizes. The face has a star engraved on the side and on one day a year, known as your lucky day, the blue orb that is the Earth would pass through the little window.

On what occasion you wear it: Due to its luxurious look the watch is far too precious for me to wear, so it spends the vast majority of its life locked away. I only manage to wear it on very special occasions like a wedding party or any other formal affairs.

Why you choose it to talk about it: It's significant to me as it was my parents' last present to me. From then on I was required to earn my own money. So my perception about watches being like a rite of passage into adulthood ended up being true!

IV. IELTS Speaking Part 3 (10 mins)

1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)

How to organise your answer in Part 3:

I: Introduction Sentence + P: Points (Point1, Point2...)

Are you familiar with current fashion trends?

I: I am normally quite **out of the loop** when it comes to current fashion trends.

P1: For me, clothing only serves specific functions like keeping me warm or allowing me to exercise more freely. Therefore, I am not a fashionista following current fashion trends as I view it as unnecessary and time-wasting.

P2: Besides, whenever my friends are discussing this topic, I often fail to follow them. To be honest, I have little knowledge about the latest styles, the famous fashion brands or any other details in the fashion industry.

2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

Key Words and Models

What is your opinion on people that spend a lot of money on clothing?

 Since I see fashion as a trivial pursuit, my opinion on people who spend a lot of money on clothing is negative. Actually, only some useful combinations of clothing are truly necessary. However, some people spare no cost to follow the trends by purchasing clothes which may be discarded not for their functionality, but for their appearance and fashion styles. This leads me to believe that people may spend an excessive amount of money on clothing **in vain**.

What do you think is a wise way to deal with fashion?

 I **am of the opinion that** one should not even bother with fashion. By its very nature, fashion is always changing and therefore always requires one to spend more money to stay up-to-date on current trends. In consequence, if you spare too much time and energy on fashion, you are really missing out on more important things in life, like your own health or volunteering to rescue abandoned animals. In other words, fashion is fleeting, so why should we put effort into something that always changes?
