Unit 4 Objects

Topic 5—Lesson 2(下篇)

A photograph you like

IELTS Speaking Part 2 (10 minutes)

You will be given one minute to prepare to talk about the topic on the task card. You will have to talk for 1-2 minutes, and then the teacher will give you feedback for 2-3mins. (5 minutes)

Describe a photograph of yourself that you like very much.

You should say:

who took the photograph

what were you doing

when the photograph was taken

and **explain why** do you like the photograph so much.

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.3 Here is another model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (5 minutes)

Model 2

What it is: A photograph I would like to discuss today was one that happened to have been taken by myself **in accordance with** the recent trend of self-photos. The photo was taken last spring. As it is so called a self-photograph or “selfie”, it doesn’t require much to deduce it was taken by me.

What you were doing when it was taken: As with most of these photos, I am staring at the camera with the rather gorgeous Brandenburg gates behind me and a seemingly **unruly** mob of tourists. In the background it can be observed that there are various jesters and street artists lounging around and vendors dotted in between them.

Why you like it so much: This happened to be the first of these kinds of photographs I’ve taken. I seek to **distance myself from** the frankly disdainful and snobbish activity of selfie taking. Yet I oft do enjoy looking at this picture as I rather enjoyed this trip. I seem to recall that the purpose was a history trip which is an ever so interesting subject. The gates in the background remain a spectacular sight to behold and this was definitely one of the highlights of my trip. Seeing something you oft see in postcards in reality is rarely so satisfying.

注：Brandenburg gate (德国) 勃兰登堡门

IV. IELTS Speaking Part 3 (10 mins)

1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)

How to organise your answer in Part 3:

I: Introduction Sentence + P: Points(Point1, Point2...)

Today lots of people can take photos with their mobile phones. What makes a person a photographer rather than someone that just takes photos?

I: I think there are some factors that help people become photographers.

P1: Traditionally, a photographer is someone who uses a professional camera to take photos. However, today's advanced electronic devices also provide amateurs with possibilities to shoot amazing photos and thus turn themselves into photographers.

P2: In order to become an excellent photographer, what you also need is the passion for photo-shooting, some relevant professional knowledge, or a teacher for the best possible outcome.

2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

Key Words and Models

What quality do you think a professional photographer has?

 I think the main and most important quality a professional photographer has is being inventive. Since photography is ultimately a creative profession, the ability to make ordinary things look special has got to be the central attribute of a photographer. This attribute ensures that the photographer can always take a fresh approach to any photo-shoot. This is essential as oftentimes photos are repetitive **by nature**.

In some countries, there are large prizes or scholarships that the government gives to photographers. Do you think this is a good use of public money? Why or why not?

 It's my personal opinion that giving away prizes or scholarships for photography is an outrageous waste of public money. Public should be spent on the sciences or literature, since photography is a cosmetic art whose value is merely surface. Photos of a professional calibre may be only popular for a short period of time, and they bring limited benefit to society compared with other urgent programmes. Therefore, it is unnecessary for the government to spend too much money financing photographers.
