Unit 5 Leisure Activities

Topic 2—Lesson 2(下篇)

A performance or a show

IELTS Speaking Part 2 (10 minutes)

You will be given one minute to prepare to talk about the topic on the task card. You will have to talk for 1-2 minutes, and then the teacher will give you feedback for 2-3mins. (5 minutes)

Describe a performance or a show. (such as a dancing or singing performance).

You should say:

what kind of performance/show it was

when and where you watched it

who you watched it with

and **explain how** you felt about it.

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.3 Here is another model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (5 minutes)

Model 2

What the show was & when you watched it: A performance that I have always remembered was not exactly a formal affair, but a lowly street performance. A few years ago a friend and I were travelling in Eastern Europe, or to be more specific, Ukraine.

Who you watched it with: We managed to mix in with the locals with ease and made many new friends. One night we were out with a group of friends and were traipsing all over Kiev when we needed to cross a road by going underground. Once halfway to our destination we **ran into** a skillful, but raggedy looking guitar player who happened to vocalise his songs in English. We ended up hanging out with this musician for **the better part of** two hours, singing along and requesting numerous famous English songs from bands like the Beatles and the Sex Pistols.

How you felt about it: The musician seemed more than eager to keep us entertained. Standing in that dusty tunnel while cars were buzzing by up above was really amazing and made for quite a **memorable** scene, so much so that I still recall almost every detail about that whole night. To this very day, whenever I pass a street musician who is talented or at least seems to be trying their hardest, I will always drop in some money to contribute to the street arts.

IV. IELTS Speaking Part 3 (10 mins)

1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)

How to organise your answer in Part 3:

T: Topic Sentence + **S:** Supporting Details (Explanation/Examples)

Do you think the performing arts should be included in school curriculums? (Why?/ Why not?)

T: I happen to think that a school's curriculum should be as diverse as possible, and that includes having the performing arts.

S1: In fact, engaging in performing arts helps foster people's creative sides. For instance, drama classes and glee classes, compared with other extra-curricular sports activities like football or lacrosse, play a more important role in nurturing students' minds and improving their creativity.

S2: Besides, these classes also provide a more lively type of outlet that is devoid of the normal friction people experience in their more fundamental classes like maths and sciences.

2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

Key Words and Models

Do boys and girls have the same feelings/attitudes about giving (or watching) an artistic performance?

 According to my observation, the differences of attitudes towards watching artistic shows between boys and girls are immense. Boys tend to consider watching an artistic performance to be boring or a waste of time. That is to say, they hold a negative attitude toward it. By contrast, girls are oftentimes feeling more excited about watching such performances. Obviously, gender differences not only extend to physical aspects, but internal as well, because boys and girls have a varying assortment of hormones that trigger emotional reactions, and these chemical changes affect the way they perceive events.

Who do you think is more suited to learning how to dance - boys or girls?

 As a rule I consider the female form to be more conducive to dancing and all the elaborate movements that are entailed, but there are also exceptions. Girls are often more balanced and coordinated than their male counterparts, and therefore it is far easier for them to learn to dance. However, with the same or more amount of practice both should be capable of learning to dance regardless of their physical limitations.
