Unit 5 Leisure Activities

Topic 5—Lesson 2(下篇)

**A journey you remember well**

## IELTS Speaking Part 2 (10 minutes)

*You will be given one minute to prepare to talk about the topic on the task card. You will have to talk for 1-2 minutes, and then the teacher will give you feedback for 2-3mins. (5 minutes)*

**Describe a journey (e.g. By car, plane, boat)  
that you remember well.**

**You should say:**

**where** you went

**how** you travelled

**why** you went on the journey

and **explain why** you remember this journey well.

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

## 2.3 Here is another model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (5 minutes)

### Model 2

**Where you went:** A trip that I always **look back** fondly **upon** was a trip I took when I was eighteen. A group of friends and I drove to a popular river, which was at the base of very majestic looking mountains.

**How you travelled:** We travelled by car initially, but the real adventure began when we arrived. Once we parked our car, we immediately started down the river via canoe.

**Why you went on the journey:** I basically went on this journey because of peer pressure, as my friends **were insistent on** me joining them. Once the trip began though, I was extremely glad **caving in** and going with them.

**Why you remember this journey well:** This trip was really unforgettable for me for several reasons. First off, it was an amazing feeling being that close to the roaring river. With splashes of water I felt more alive than before. **The second reason was that this journey required tremendous willpower and strength to complete, so it really showed me what I was made of!** Lastly, it was a great bonding experience; I still keep in touch with that particular group of friends even though we have all moved away from one another.

## IV. IELTS Speaking Part 3 (10 mins)

**1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)**

How to organise your answer in Part 3:

I: Introduction Sentence + P: Points (Point1, Point2...)

What do you think people will learn from travelling to other countries? Why?

**I:** If I had to pick two of the most important lessons people learn from travelling abroad, I would say they learn responsibility and **tolerance**.

**P1:** Travelling to another country requires you to take matters into your own hands, and makes you responsible for your actions. While touring abroad, you are also given the opportunity to take care of your travelling partners whenever they need help.

**P2:** What's more, being immersed in another culture teaches you to respect the different customs and traditions of other societies, thus making you more tolerant of other cultures.

## 2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

### Key Words and Models

#### Can travel make a positive difference to the economy of a country? How?

Obviously, travel has many positive effects on a country's economy, especially as it pertains to the tourism industry. Tourists with **disposable income** who flow into a country in hope of visiting famous tourist attractions will stimulate its economy in varied aspects. For instance, the revenue earned from selling the tickets of scenic spots, travel products, food and services plays an essential role in promoting a country's economic development.

#### Do you think a society can benefit if its members have experience of travelling to other countries?

I think as a whole overseas tours are beneficial to the society. When these travellers get back from abroad, they bring with them a more open mind, and they usually become wiser for having seen the outside world. Without doubt, the society will be much more productive if its members have diverse experiences of travelling to exotic locations and meeting different people. This is why many governments attach great importance to sponsoring exchange programmes **so as to** encourage more people to travel beyond the borders.
