

51Talk IELTS Speaking-Advanced

雅思口语高级

——冲刺 7.5 分

Unit 5 Leisure Activities

Topic 6—Lesson 1(上篇)

Something healthy that you enjoy doing

I. Pronunciation Practice (2 minutes)

Silent 'e' with Letter 'o'

Generally, letter 'o' makes the sound / ɒ / in words like hop; however, when we add 'e' at the end of the word 'hope', 'o' makes the sound / əʊ /, and 'e' doesn't make a sound.

Read the following words and pay attention to the sound of 'o'.

hop

hope

lob

lobe

dot

dote

II. IELTS Speaking Part 1 (8 minutes)

Extend your answer to 3-4 sentences. It's easier to get 7.5.

1. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (4 minutes)

What public holidays do you have in your country?

What public holidays do you like the most?

Do you prefer doing things indoors or outdoors on public holidays?

The examiner will score your answer from the following aspects:

1. How good you are at **keeping talking** at the right speed and **connecting your ideas together**;
2. **How much vocabulary** you have and **how well** you use it;
3. **How many structures** you have and **how well** you use them;
4. How well you **pronounce** the language.

2. Read and learn the following key words and models for the IELTS Part 1. You are suggested to apply these words in the following steps. (4 minutes)

Key Words and Models

easily the best

Example: China has a moderate amount of public holidays. There are a total of seven annual public holidays that are celebrated in my country. **Easily the best** and most popular of these celebrated days is the Chinese New Year, which is subject to the lunar calendar. During this three-day period the biggest domestic migration takes place with people travelling hundreds of miles to see their loved ones.

reinvigorate

Example: My two favourite holidays are the Chinese New Year and the National Day. The reason is simple: these two public holidays offer at least 7 consecutive days off. By giving a longer amount of time for relaxation, these holidays effectively **reinvigorate** me and help me adopt an overall healthy attitude towards work in general. Also, due to the amount of days off of work, there is adequate time to travel to see the family that usually live in different parts of the country.

peace of mind

Example: Since I live in Beijing, most of my options for outdoor activities are severely limited by external factors, such as heavy traffic or pollution levels. Therefore, I tend to spend the majority of my free time doing things indoors on public holidays. The knowledge that I am safe from outside pollutants and inconveniences gives me a **peace of mind** that I desperately need in order to enjoy any holiday.

III. IELTS Speaking Part 2 (12 minutes)

1. *Brainstorm. Plan your answers based on the given questions. (1 minute)*

Describe something healthy you enjoy doing

- What do you do?
- Where do you do it?
- Who do you do it with?
- Why do you think doing this is healthy?

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.1 Here is a model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (8 minutes)

Model 1

What you do: Something I really love doing related to health is yoga. It is the perfect combination of stretching and strength training, therefore extremely helpful for building lean muscle.

Where you do it: The best part about doing yoga is that you can do it anywhere. You just pull out your **trusty** yoga mat, sit down, and begin your workout. Owing to its **versatility**, I normally do yoga in the comfort of my own house.

Who you do it with: Yoga can be a group activity and it is quite popular to do so in my city; however, I prefer to do yoga alone. This type of fitness routine doesn't really require a partner and I see people as a hindrance to the meditative aspects of yoga.

Why you think doing this is healthy: Yoga has many health benefits, all of which are equally amazing. This form of exercise increases flexibility and reduces stress. It also has other surprising effects on the body. For example, it can **boost your immunity**. Research has shown that it works at the cellular level to increase your body's resistance to infections. Doing yoga can even help you sleep better at night due to the relief of stress.

You are required to talk for the full 2 minutes.

2.2 Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (3 minutes)

Describe something healthy you enjoy doing.

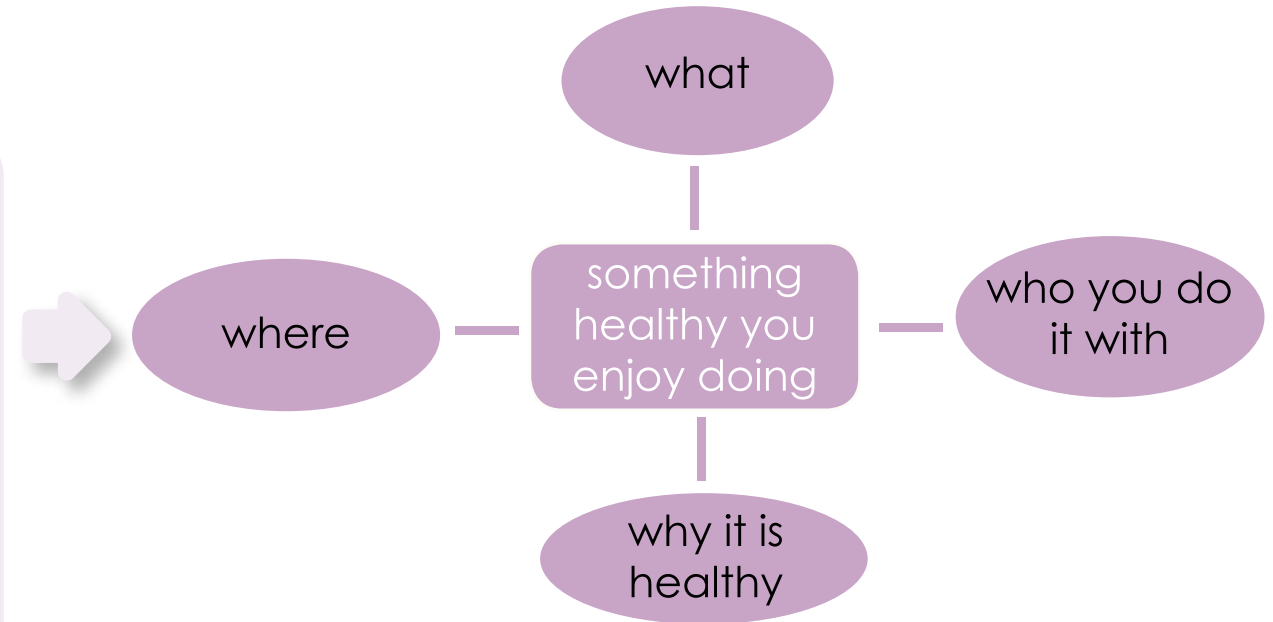

You should say:

what you do

where you do it

who you do it with

and **explain why** you think doing this is healthy.

Homework: Please use the model for these two topics for further practice.

Describe an activity you do.

Describe something you do to keep fit.

Review (2 minutes)

Key Words & Expressions
