Unit 5 Leisure Activities

Topic 6—Lesson 2(下篇)

Something healthy that you enjoy doing

IELTS Speaking Part 2 (10 minutes)

You will be given one minute to prepare to talk about the topic on the task card. You will have to talk for 1-2 minutes, and then the teacher will give you feedback for 2-3mins. (5 minutes)

Describe something healthy you enjoy doing.

You should say:

what you do

where you do it

who you do it with

and **explain why** you think doing this is healthy.

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.3 Here is another model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (5 minutes)

Model 2

What you do: An exercise routine that I have grown quite fond of is CrossFit. This type of exercise combines aerobics and weightlifting, oftentimes in quick succession.

Where you do it: I do this workout three days a week at a site called the Box. The Box is actually a repurposed warehouse with the space needed to train using this method. In such an atmosphere, I would feel a part of a bigger organism is working together like an assembly line.

Who you do it with: The main reason why the workout space is so vast is that this is a group workout programme. It's best to do it with a community of **likeminded** individuals. Generally, I end up training with anywhere from ten to twenty people **at any given time**.

Why you think doing this is healthy: CrossFit is a proven training method for professional athletes, and is utilised by police academies and militaries all over the world. For me it has also proven to give the best results in the quickest amount of time. Following the scheduled workout sessions has given me huge gains in **muscle mass**, and I understand more of CrossFit exercising this way. Now I am quite aware how amazing this routine is through this experience. If fitness is your main goal, then this workout routine is the most approachable.

IV. IELTS Speaking Part 3 (10 mins)

1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)

How to organise your answer in Part 3:

T: Topic Sentence + S: Supporting Details (Explanation/Examples)

Why do some people think that modern lifestyles are not healthy?

T: According to nutritionists and dietary experts, modern lifestyles are unhealthy mainly due to people's improper diet, which contains **exuberant amounts of** sugar and fat.

S1: The amount of sugar in common foods combined with easy access to other unhealthy foods creates the perfect condition for bad lifestyle choices, because they can lead to severe and horrifying health problems, such as diabetes and heart disease.

S2: The fat contained in our food is also dangerously high according to most experts on nutrition. They claim that consuming too much greasy food does not only cause massive weight gain, but also incurs many other problems in life.

2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

Key Words and Models

Should individuals or governments be responsible for making people's lifestyles healthy? Why or why not?

 The best answer to this question is that both the government and the individuals are responsible in varying degrees. Since the government has more resources, they are responsible for educating the general public on what constitutes a healthy diet. After receiving the education from the government, most of the burden for making **long-lasting** healthy choices lies with the individuals, because each person is responsible for his own well-being and each has the freedom to choose whatever lifestyle best suits him.

 **What could be done to encourage people to live in a healthy way?**

In my opinion, this is a case of nature vs. nurture and our environment is the main influence on our behaviour. It seems that the younger you are, the more possible it is that you can be influenced by your peers, so the battle for people's health should begin early and in the classroom. It is important that knowledgeable teachers instill healthy habits into children, which in turn will **curb** the development of future unhealthy habits.

V. Summary (5 minutes)

Key Words & Expressions

likeminded

at any given time

muscle mass

exuberant amounts of

long-lasting

curb

Key Sentences

It's best to do it with a community of **likeminded** individuals.

I end up training with anywhere from ten to twenty people **at any given time**.

Following the scheduled workout sessions has given me huge gains in **muscle mass**.

According to nutritionists and dietary experts, modern lifestyles are unhealthy mainly due to people's improper diet, which contains **exuberant amounts of** sugar and fat.

After receiving the education from the government, most of the burden for making **long-lasting** healthy choices lies with the individuals.

It is important that knowledgeable teachers instill healthy habits into children, which in turn will **curb** the development of future unhealthy habits.

The next lesson will be **Unit 6 Topic 1 Your favourite season**.
