Model 1

What when and who: One of my most cherished photographs is from when I was a child. The photograph was taken by my mother after a baseball game.

What you were doing: This was the first game that I was able to play the entire time as the pitcher. This photograph shows the team together after the last game of the tournament.

Why: This photograph indicates many different emotions felt in my childhood. The photograph shows a group of young adolescents that were able to come together and play as a team. However, the photograph also shows the disappointment that was written all over our faces, for that day we lost the most important match in the tournament. That photograph reminds me that winning and losing is not always the most important at the end of the day, but being a part of a team is crucial. The knowledge from that picture has been kept in my mind for so many years and will remain with me forever.
