wine and put the waste into a vase

II. IELTS Speaking Part 1 (10 mins)

1. Read and learn the following key words and sentences for the IELTS Part1. You are suggested to apply these words in the following steps. (5 mins)

Key words and key sentences

preference

 Example: I like going to concerts, but whether or not I go is heavily dependent on the type of concert it is. I have a **preference** for country music, so I only attend concerts to appreciate the live performance of popular country musicians who light up the stage, such as Taylor Swift.

ambiance

 Example: Generally speaking, I think most people like concerts more. Compared to recordings, people are able to hear the most authentic music, which is of a much higher quality of music that hasn't been digitally enhanced in a sound studio. Moreover, it provides unmatched **ambiance** in which people can experience the music with more than one sense, like sight, sound and smell.

memorable

 Example: One of the major benefits is that it can be a great chance for people who share the same love of music to get together and share their opinions about music related issues. Another benefit is that through attending concerts people can create a truly **memorable** experience of fabulous music and lights on the stage.

Extend your answer to 3-4 sentences. It's easier to get 6.5.

3.1 Here is a model for the IELTS Speaking Part 2. We will focus on the sentences highlighted below. (4 mins)

Model 1

What: During my childhood, I played nearly every game available. “Lava”, among all of them, was the most impressive one.

Who: I played “Lava” with my cousins and friends who lived nearby mostly because it was more of an indoor game that could only involve a few players.

How: Unlike many outdoor sports demanding strength and agility, “Lava” was a game in which we were able to practice our imagination as well as the flexibility of our body, in a way that we had to pretend the floor of the house was **utterly** covered in lava. Our mission was to go across the room by stepping on the objects on the floor, because any step directly on the floor would result in being melted by the imaginary lava.

Why: I always recall the memory of playing “Lava” because it stimulated my **originality** and creativity as a child. As there was usually a long distance, I had to design a path to move around. Sometimes I would even have to get across the room by finding objects and constructing a bridge. No matter when and where, we could find joy in playing “Lava”, as we had the capacity for imagination.
